

CAPELLA

SINGAPORE

A SERENE OASIS OF COLONIAL HERITAGE AND MODERN ELEGANCE

OVERVIEW

Capella Singapore offers an inspiring natural setting while providing easy access to Singapore's financial and shopping districts. Residing on 30 acres of lush rainforest, the resort's tranquil setting on a knoll is a masterpiece that harmoniously blends Singapore's rich colonial heritage with a symphony of contemporary architectural curves and designs.

ART CURATION

An ardent supporter of the arts, Capella Singapore has curated over 900 art pieces, that have been seamlessly integrated as part of the hotel's design since its construction phase.

The remarkable incorporation of the classy, modern hotel wing with the heritage colonial buildings by Lord Norman Foster of Foster & Partners, is a masterwork in itself. From sculptures to art pieces that can be found at every corner, these artworks create a distinctive ambiance throughout the resort.
